<b>Office Action Summary</b>	Application No. 10/640,983	Applicant(s) SNELSON, BILL <span style="float: right;">VB</span>	
	Examiner Milton Nelson, Jr.	Art Unit 3636	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Information Disclosure Statement*

Applicant's information disclosure statement appears to be incomplete in that publication dates for the cited documents have not been provided. Since the submission appears to be *bona fide*, applicant is given **ONE (1) MONTH** from the date of this notice to supply the above mentioned omissions or corrections in the information disclosure statement. **NO EXTENSION OF THIS TIME LIMIT MAY BE GRANTED UNDER EITHER 37 CFR 1.136(a) OR (b).** Failure to timely comply with this notice will result in the above mentioned information disclosure statement being placed in the application file with the noncomplying information **not** being considered.

### *Drawings*

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference sign(s) not mentioned in the description: 103. A proposed drawing correction, corrected drawings, or amendment to the specification to add the reference sign(s) in the description, are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Specification*

The specification is objected to because the reference character 96 has been inconsistently assigned. Note pages 6 and 7.

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In line 1 of claim 1, "the width" lacks proper antecedent basis. In lines 4-5 of claim 1, "the frame of a motorcycle" lacks proper antecedent basis. In line 5 of claim 1, it is unclear if "the seat cushions" are intended to be the previously set forth "motorcycle seat cushion" and "a seat cushion". In lines 5-6 of claim 2, it appears that the motorcycle accessory supports" are set forth as mounted to themselves. The metes and bounds of this limitation cannot be determined. In line 1 of claim 3, "the width" lacks proper antecedent basis. In claim 3, it is unclear if Applicant intends to positively claim the combination of a seat assembly and a motorcycle passenger seat, or the subcombination of a seat assembly for use with a motorcycle passenger seat. Line 1 appears to set forth the subcombination. Note the recitation a "seat assembly for expanding the width of a motorcycle passenger seat". Lines 7-8 appear to set forth the combination. Note the recitation of the support means of the seat assembly being "positioned adjacent opposite sides of the passenger seat". Claims 4-6 are indefinite since each depends from an indefinite claim.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(c) he has abandoned the invention.

(d) the invention was first patented or caused to be patented, or was the subject of an inventor's certificate, by the applicant or his legal representatives or assigns in a foreign country prior to the date of the application for patent in this country on an application for patent or inventor's certificate filed more than twelve months before the filing of the application in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

(f) he did not himself invent the subject matter sought to be patented.

(g)(1) during the course of an interference conducted under section 135 or section 291, another inventor involved therein establishes, to the extent permitted in section 104, that before such person's invention thereof the invention was made by such other inventor and not abandoned, suppressed, or concealed, or (2) before such person's invention thereof, the invention was made in this country by another inventor who had not abandoned, suppressed, or concealed it. In determining priority of invention under this subsection, there shall be considered not only the respective dates of conception and reduction to practice of the invention, but also the reasonable diligence of one who was first to conceive and last to reduce to practice, from a time prior to conception by the other.

Claim 1, as best understood with the above cited indefiniteness, is rejected under 35 U.S.C. 102(b) as being anticipated by Shavitz (5697671). In Figures 6-7, note the motorcycle seat cushion (14), cushion support frame (62), support means (upper surface of 62), and mounting means (straps or 60).

Claim 2, as best understood with the above cited indefiniteness, is rejected under 35 U.S.C. 102(b) as being anticipated by Shavitz (5697671). In Figures 6-7, note the seat cushion (14), cushion support frame (62), support means (upper surface of 62), mounting means (60), and fastening means (straps, buckles).

#### ***Allowable Subject Matter***

Claims 4-6 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 3 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

#### ***Election/Restriction***

Applicant's election without traverse of Group I, Figure 2, claims 1-5 is acknowledged. Non-elected claim 6 has been treated on the merits since it is dependent from a claim that has been found to contain allowable subject matter. Non-elected claim 7 has been withdrawn from further consideration.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Laterally extending saddle portions are shown by each of Kaptur (2002/0067059) and Goin (6481792). A seat member with laterally located portions is shown by Kolpin (6508511).
